Field Print are an experienced Litho Printers based in the North East of England with over 20 years experience producing large and small run, high quality print.

We invest in the very best equipment available enabling us to provide the highest quality in print and provide a free, pre-print consultation service on artwork, paper stocks, printing and finishing, and provide next day quotations.

We work closely with Designers, Marketing Teams and Companies producing a range of printed materials and through our pre-print consultation we provide experienced advise on all aspects of your project making sure you always get the best product at the best cost.

In addition to our core Litho printing service we provide complementary services such as Die Cutting, Blind Embossing and Foil Blocking. All finishing is managed in-house and we also provide temperature controlled storage and next day delivery throughout the UK.

Throughout the printing process we check each stage to maintain the highest standards whilst keeping you up to date on progress. Whether brochures, leaflets, stationery or publications we work with our Paper Suppliers to provide the best stocks at very competitive prices. We arrange for samples to be made and understand the importance of how to correctly store and manage paper. From paper, inks, finishing, delivery and waste management we monitor all aspects of our printing process and business to provide the highest standards of environmentally friendly stewardship and provide all our customers with advise on best practice.
